

## Exterior Cleaning

Just like you would not expect to rent a dirty car, your renters do not expect to rent dirty Recreational Products. So please make sure the exterior of your Toy has been thoroughly cleaned before the arrival of your renters. Remember, the cleaner your Toy, the better your review will be!

## Interior Cleaning

Just like the exterior, the interior of your Toy should be as spick and span as possible. No one likes to check-in to a dirty room. Make sure the interior of your Recreational Vehicle has been meticulously cleaned before the arrival of your guests.

## Tire Inspection

Tires are super important on the road, so give every single tire a thorough inspection. This includes the interior tires on dual wheel units. Keep in mind that tires rot from the inside out. Whatever damage you see on the outside is far worse on the inside. You should check the tires for:

- ✓ Wear
  - ✓ Tread Depth ✓ Cuts
  - ✓ Bulges ✓ Proper Inflation

Never allow a rental to occur if there is an unresolved tire issue. Any tires in question must be replaced. Do not rent your Recreational Vehicle, Toy, Travel Trailer, Car or Truck if its tires are old. The #1 cause of RV and travel trailer accidents is tire failure. So please be extremely diligent in maintaining the quality of your tires. Thank you.

## **Routine Maintenance**

You must adhere to a regular maintenance schedule for your Toy. If you do not already, you should begin routine maintenance prior to the arrival of your party. An easy way to do this is to take your Toy to a dealership or service professional and have it serviced.

## **Fluid Check**

Check all fluid levels: ✓ Oil

✓ Generator Oil ✓ Transmission Fluid, Etc

## **Signals Check**

Check all lights and signals:

✓ Driving Lights

✓ Head Lights ✓ High Beam Lights ✓ Rear Driving Lights

## **Systems & Features Check**

✓ Brake Fluid ✓ Radiator Fluid ✓ Windshield Washer Fluid

✓ Brake Lights ✓ Front Turn Signals ✓ Rear Turn Signals

Check all auxiliary features and systems: Examples: ✓ Generator  
Check ✓ Slide-Out Check ✓ Awning Check ✓ Refrigerator/Appliances  
Check

## **Test Drive**

Take a test drive to check for observable issues and to ensure the unit is ready for travel. Drive at a range of speeds under varying conditions.

Look out for any noises, vibrations, smells, or other signals that there is an issue with the unit. Do not allow a rental to occur if you suspect any type of problem with your unit.

## **Paperwork Ready**

Get all the necessary paperwork printed out and ready. This includes your *URentMe Terms and Conditions*, Insurance documentation as well as any *additional contracts or forms* you will want signed.

**Make Adequate Time for a Renter Walkthrough with You, Full Instruction, Completion of the Acceptance/ Return Form and a Happy Send Off!**
